

Below are your tasks for the next seven days in the subject listed above.

Component 2 – Learning Aim A: Different types of services and barriers to accessing them.

Task 1:

- So far, you should now have completed ‘Pass 1’ and ‘Pass 2’ for Component 2, Learning Aim A.
- You will now complete ‘Merit 1’;

Analyse the extent to which health and social care services meet the needs of individuals in a given scenario, explaining how barriers for one service can be overcome”

Task 1:

- Explain how the three barriers identified to Sophia, can be overcome.
- Will they be difficult to overcome? How can she do this best?
- This can be completed as three separate paragraphs titled using the specific barrier you will discuss.

Task 2:

- You will complete the table on the following slide.
- Here, you will need to look at the services used by Sophia and Alfie and identify the similarities and differences for them.

Needs (P.I.E.S)	Services - These are the places and specialists Alfie and Sophia need to access to help them with their PIES needs.	Similarities	Differences
Physical (Example only)	Eyes – Optician	<ul style="list-style-type: none"> Both Alfie and Sophia have difficulties with their eye sight. They both need help with their vision and therefore need specialist support off an optician. 	<ul style="list-style-type: none"> Sophia needs to visit the eye specialist at Birmingham Children's Hospital as her condition requires an more specialist consultants to help her overcome sight problems relating to CHARGE syndrome. However, Alfie is able to visit the local opticians to get an eye test and sight prescription. His difficulties can be addressed with prescription glasses from a primary care service.
