ACADEMY LANGLEY

Maths – Sparx Intervention

12th November 2026

To the Parent/Carer of: «Name» «Tutor»

Your child's academic success is very important to us at Q3 Academy Langley. Following our ongoing homework monitoring and performance on their Cycle One Assessment, we have identified that your child would benefit from some additional intervention.

Sparx Maths homework provides essential consolidation of lesson content, improving fluency and recall. Our research on past student performance indicated that completing less than 90% of their Sparx Maths homework reduces their chances of passing their Maths GCSE, whereas those who complete 100% of Sparx Maths homework on average achieve at least grade five.

«Name» has not been completing Sparx to the expected standards on a regular basis.

We are therefore asking «Name» to attend our Sparx Intervention Sessions.

These will take place every week on Wednesday after school from «Time». Students are expected to make their way to 1.21 straight after lineup. Failure to attend will result in a Head of School detention.

Sparx Intervention will start on Wednesday 18th November 2026 and run for four weeks, with the last session being Wednesday 9th December 2026.

We thank you in advance for your support, and if you have any questions, please contact Mrs Lees at the Academy.

Yours faithfully,

C Lees
